6-7.04.2027

11th FORUM FOR THE TIMBER CONSTRUCTION INDUSTRY

PRACTITIONERS FOR PRACTITIONERS

EXHIBITOR OFFER

- **www.forum-holzbau.pl**

• ABOUT FORUM HOLZBAU

• FORUM HOLZBAU was founded more than 25 years ago as a platform for leading universities in Europe and North America, sharing knowledge and technology in timber construction. We achieve our goals through a European programme of conferences and exhibitions that support and coordinate learning, research and education in sustainable construction and push the boundaries of modern timber structures.

Every year, more than 7,000 participants from around the world attend Forum Holzbau conferences in a dozen countries. They include architects, civil engineers, structural designers, researchers and timber construction professionals — from designers and building contractors (roofers, carpenters) to construction supervision specialists.

• FORUM HOLZBAU WORLDWIDE:

FORUM WOOD BUILDING NORDIC

FORUM LEGNO EDILIZIA ITALIA

FORUM HOLZBAU DEUTSCHLAND KÖLN

FORUM HOLZBAU INTERNATIONAL

FORUM WOOD BUILDING BALTIC

FORUM BOIS CONSTRUCTION FRANCE

FORUM HOLZBAU POLSKA

FORUM HOLZBAU BAUPHYSIK & GEBÄUDETECHNIK

FORUM MADERA CONSTRUCCIÓN ESPAÑA

FORUM HOLZBAU DEUTSCHLAND BERLIN

FORUM HOLZBAU DEUTSCHLAND STUTTGART

FORUM WOOD BIOECONOMY INTERNATIONAL

FORUM HOLZBAU TECHNIK & WIRTSCHAFT

FORUM WOOD BUILDING UNITED KINGDOM

FORUM HOLZBAU PREMIUM PARTNER

Premium Partners are leading suppliers of solutions for timber construction who support Forum Holzbau in every country where our conferences are held. Their stands are therefore also located in the Premium Zones at conferences in Poland.

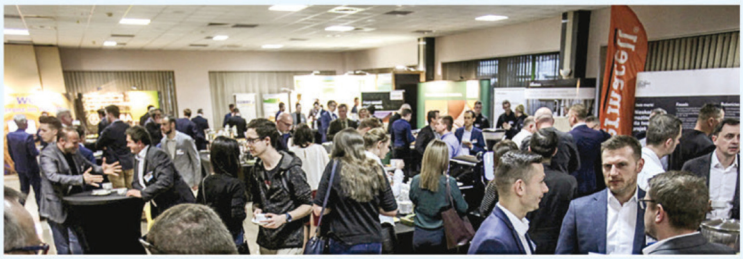

PREMIUM PARTNERS

EGGER · JamesHardie · rothoblaas · STEICO naturalny system budowlany

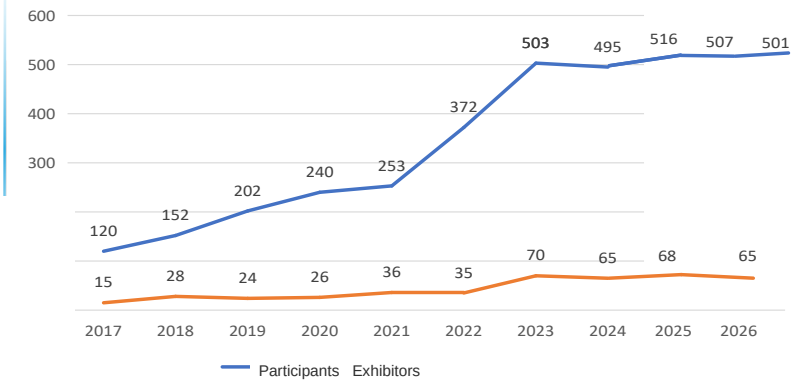

ISOCELL · binderholz · pro clima · SIHGA · KNAUF

6–7 April 2027
Hotel Windsor
Jachranka near Warsaw

Number of participants: approx. 500
6 thematic sessions
17 speakers
1,500 m² of exhibition space

Topics:
- Digitalisation and prefabrication in construction processes
- Optimising timber house production: raw material costs and logistics
- Durability of timber structures: fire resistance, wind insulation and moisture resistance
- Solid timber houses: the tradition of log construction and the modernity of engineered wood
- Modularity in timber structures
- Multi-storey buildings: structural solutions and extensions
- Timber buildings adapted to the needs of older people and people with disabilities: lifts, ramps and balconies
- Structural solutions for roofs
- Windows and doors in timber construction
- Traditional carpentry joints

- **FORUM HOLZBAU POLSKA**

/ the largest event for timber construction professionals
/ unique knowledge and direct contacts
/ new technologies and building products
/ current standards and regulations

- **www.forum-holzbau.pl**

• B2B

Forum Holzbau Polska offers two distinct spaces:

- Conference rooms, where lectures by independent experts take place. Promotion, product placement and roll-up displays are not permitted here.
- Exhibition area, adjacent to the lecture rooms, where companies can present their products, technologies and services. In addition to stands, the area has tables for refreshments during coffee breaks, creating a welcoming space for making new business contacts.

The exhibition area offers unequipped stands in the following sizes:

2 × 2 m – Exhibitor stand
2 × 3 m – Sponsor stand
2 × 3 m – Partner stand
3 × 4 m – Premium Partner stand

Please note: Stands are reserved in the order in which applications are received. Companies that exhibited or sponsored the previous edition have priority. Information about currently available stands can be found at www.forum-holzbau.pl under B2B EXHIBITION SPACE.

- **www.forum-holzbau.pl**

SPONSOR PACKAGE
€2,200

STAND

- 3 × 2 m stand in the B2B exhibition area

ADMISSION TICKETS

- 3 Premium tickets
- 40% discount on the next 5 Standard and Comfort tickets

FORUM HOLZBAU POLSKA

Hotel Windsor
Jachranka | Warszawa

Exhibitor stands measure 2 × 2 m and are equipped with a table, two chairs and a power strip. Exhibitors usually set up two roll-up displays at their stands. Examples are shown below.

Sponsor stands measure 3 × 2 m and can be equipped, on request, with a table, two chairs and a power strip. Sponsors usually set up a pop-up wall at their stands. Examples are shown below.

The exhibition area is an open space where coffee breaks take place. Tables are available for participants to continue discussions after the presentations and make new contacts.

The evening dinner is an important opportunity for the industry to come together. Each exhibitor receives one admission ticket including dinner and may purchase additional tickets at a 25% discount. Sponsors receive three admission tickets including dinner and a 40% discount on additional tickets.

JOIN FORUM HOLZBAU POLSKA

Poland has become one of the fastest-growing timber construction markets in Europe. From a country where timber technology accounted for barely 2% of new buildings, we are developing into a significant producer of structural components and a contractor for buildings using various timber technologies.

We draw on the technological achievements and know-how of more experienced countries such as Germany, Sweden, Norway and the USA, while also implementing our own solutions, ideas and patents.

At the next edition of Forum Holzbau Polska, we want to promote Polish expertise in timber construction, showcase the work of our researchers and the ideas of Polish architects, as well as the confidence of Polish developers who choose timber.

CONFERENCE AGENDA

Tuesday, 6 April 2027
7:00–11:00 | Set-up of stands in the exhibition area
12:00–14:30 | OPENING SESSION A
Timber buildings – requirements of the future
14:30–15:30 | Lunch break in the Premium Partners' area
15:30–17:00 | Session B: Prefabrication and thermal modernisation in the urban fabric
17:00–17:30 | Coffee break in the exhibition area
17:30–18:30 | Session C: Challenging timber structures
19:00–23:00 | GALA DINNER

Wednesday, 7 April 2027
8:30–9:30 | Morning coffee in the exhibition area
9:30–11:00 | SESSION D / Master Holzbau
Timber construction – a young engineers' perspective
11:00–11:30 | COFFEE BREAK
11:30–13:00 | SESSION E
Fire protection technologies in timber construction
13:00–13:30 | COFFEE BREAK
13:30–14:30 | CLOSING SESSION F
Timber construction in Poland – good practices
OPEN DEBATES
Discussion panels for architects and contractors
Business Carousel
Wood Forum
Expert-led moderated discussions will take place in the Orangerie Room. A great opportunity for networking and building industry connections.

OPINIE

Łukasz Otlewski, Kronospan: Forum Holzbau Polska is the best timber construction event in Poland. I regret that we joined so late (in the 7th edition), but now we want to be here every year.

Ellika Cachat, architect, Modulize: If you have not yet attended Forum Holzbau Polska, I highly recommend doing so in the future. It is an excellent opportunity for academia and industry to exchange experience. The high-quality live bilingual interpreting (Polish into English and vice versa) removes language barriers to participation.

Theodor Kaczmarczyk, Managing Director, MOD21: Thank you for inviting me to speak at Forum Holzbau Polska 2024! It was a great opportunity to share the experience we have gained at MOD21 and discuss how to successfully become an international construction company. I greatly enjoyed the discussions and exchange of views.

Andrzej Ossowski, Site Engineer, PORR: Holzbau Forum Polska was an amazing experience that will stay with me for a long time! Your enthusiasm was truly wonderful.

Joanna Mieżał-Basińska, Homag Polska: Thank you for the excellent organisation and valuable presentations! We are pleased to have had the opportunity to meet industry professionals and present our unique portfolio of products and services.

Radosław Gliński, Nestro: Our representatives were impressed by both the excellent presentations and the interesting meetings and conversations at the stand. This is a great event and a valuable opportunity for professionals to meet, exchange experience and learn from one another.

Magda Szabert, architect, Eurban Ltd: It was a fantastic opportunity for us to share our experience with Polish construction professionals and learn more about the exciting Polish timber construction market.
